

## Interested in our Adult High School?

**1. If you are over 18 years of age, and want to earn an MATC Adult High School diploma,** you should begin by calling 414-297-7698 to schedule a screening (placement) test. Listen closely to the recorded message and be sure to follow through! You should also contact the last high school you attended and obtain a transcript. If you live a great distance from MATC, we will have to make other arrangements.

**If you are under 18 years of age,** (or you are over 18 and trying to earn a diploma from your “regular” school) you may take Adult High School on-line or evening classes only with the written permission of your school. The permission must be on school letterhead and specify which course(s) you need to take. Feel free have your counselor contact me – or better yet – show them this web site!

**2. To see what on-line courses are available - do the following:**

1. Navigate to <http://infonline.matc.edu/>
2. Click on "search for available classes" (no log-in required)
3. Pull down the term you are interested in searching
4. Just to the right click in the box “on-line course search”
5. Scroll down and pull down "Adult High School" from the academic level box
6. Click “submit”

You will retrieve a list of Adult High School on-line courses and see how many slots are left. (If you wanted to see all Adult High School courses, you wouldn't click in “on-line course search.”) Click on the course title to obtain additional information.
