

Attendance Policy: Attendance will be taken on a daily basis. Students are expected to attend class regularly and to arrive on time. Because this is a wet lab, **THERE ARE NO MAKEUP LABS.** It is the student's responsibility to discuss absences with the instructor. You may get some experimental data from your lab partners; however, the answers to the questions must be your own. Points will be taken off labs if you do not attend that lab. In the fall and spring semesters, I usually teach two sections. You may be able to attend the other lab if you have a conflict, and if there is room.
